

## Equitable Partnerships Task force

---

The Equitable Partnerships (EP) project “From Principles to Practice”, is a partnership between UK Collaborative on Development Research (UKCDR) and ESSENCE (<https://www.ukcdr.org.uk/what-we-do/our-work/equitable-partnerships/>). It aims to develop guidance highlighting remaining barriers and enablers in funder practice to support equitable research partnerships, and provide innovative recommendations and case studies. The project is being undertaken with oversight from the EP Task Force with two main deliverables. These are more specifically, the development of [Equitable Partnerships Resource Hub](#) (which is now complete and live on the UKCDR website, alongside a [co-authored blog](#) by UKCDR and ESSENCE), and funder guidance and recommendations on supporting equitable research partnerships including case studies highlighting good funder practice and lessons learned. The hub contains over 30 resources on EP with a focus on research, collated with input and oversight by the Equitable Partnerships Task Force.
