

Massive Open Online Course (MOOC):

Effective communication of research findings for
evidence-informed decision-making in public health

Empowering health professionals to turn evidence into action

Congratulations! Your paper has been published in a peer-reviewed journal. But don't stop there. This free, self-paced online course from TDR, the Special Programme for Research and Training in Tropical Diseases, will enable you to effectively communicate your research findings to those who can act on them to improve public health. Developed by global experts and tested in real-world settings, the course is part of TDR's Structured Operational Research and Training Initiative ([SORT IT](#)) initiative and is designed for programme implementers, frontline health professionals and researchers.

Course content

This MOOC will enable you to:

- Write a plain language summary
- Develop and deliver "lightning" presentations
- Conduct stakeholder mapping
- Craft an elevator pitch
- Develop a communication plan
- Share your work on social media
